Hi Diana,

Just wanted to tell you that I passed the class and wanted to say that I wouldn't have been able to without all your help! Thanks so much for always making the time to help me out.

Hope you have a wonderful break!

Best,

Hello, Diana
I am a student in your recitation for CS205.

I just want to say thank you for everything you have done in the past semester. I enjoyed Professor Ames's lectures, and your recitation helped me a lot to practice concepts and understand theories. In my opinion, you often speak slowly, so I thought you might be a little bit shy, but your teaching is really beneficial to me, I often found myself doing better and easier in quiz and homework when I went to your recitation, so thank you! I think you are a patient and kind person, you made me feel comfortable asking questions in recitation and discussing with you.

I wish you a great summer and life. No matter what you do in the future, I wish you good luck.

Warm regards.

Hi Diana,
I just wanted to thank you for an amazing semester! Discrete was one of my harder classes and coming to your office hours really helped me do well in the class. I loved your recitations, they always helped cement the concepts and helped me grasp them better. Overall thank you for helping throughout the semester, I really appreciate it!

Wishing you luck in your future endeavors,
